WORK EXPERIENCE

ServiceNow — Sr. UX Researcher

Feb 2022 - Present | Santa Clara, CA

- Currently spearheading research efforts for the AI Native customer service workspace - a major company and BU priority
- Led research for the Playbooks product which resulted in a 110% increase in adoption (product had been stagnating since inception 5 years prior) and major strategic shifts in usage across multiple BUs.
- Established pioneering research efforts on the 0-1 Sales and Order Management product. Product is the fastest growing vertical within the CSM BU.
- Continuously building strong partnerships with Customers, PM, Sales, Engineering, Design, Product Content, QA, etc. to influence decision making across the product lifecycle.

NASA — UX Research Lead [SJSURF Contract]

Jan 2021 - Aug 2021 | Mountain View, CA

- Worked with the Ames Research Center to develop an asynchronous communication platform as part of NASA's mission planning suite for Mars missions.
- Interviewed astronauts and NASA SMEs to solve for safe and efficient deep space communication.

Harvard University — Research Fellow [Data Privacy Lab]

Jun 2019 - Aug 2019 | Cambridge, MA

- Implemented user-friendly interface and infrastructure for the Political Ads Library (database with 3 million+ ads)
- Development of website directly lead to proposal of MA House Bill No. 3921
- Website is a significant part of the curriculum for Harvard's GOV 2430 class
